Rio

Close your eyes and sit down. Don't you feel like being on a soft and delicate cloud? This is how the Rio sofa owners most often speak of it. You can pleasantly "sink into" it thanks to the combination of two special highly elastic foams and silicone down which offers the same feeling as natural feathers but is friendly to people with allergies and resistant to deformations often referred to as "sagginess". Additionally, Rio is a modular product which gives lots of possibilities to design furniture perfectly satisfying your family's needs - with a proper size and shape. It can be a regular sofa, a corner sofa or a giant U-shaped couch. You can be sure that it will become your favourite place in any of these forms.

Corner sofas

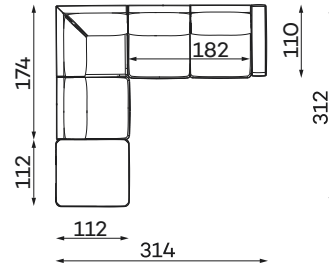

Available in a left-hand or right-hand configuration. The sets below are left-hand facing.

RIO SET 2

What makes the Rio sofa stand out?

They make the seat more flexible and provide excellent underlying support for a highly flexible foam layer.

The highly-flexible foam improves the durability and elasticity of the seat, preventing deformations.

You can choose the fabric from dedicated series, including easy-to-clean fabrics.

The ergonomic and comfortable design of the backrest and seat perfectly fits the curve of the human body.

The upholstered back allows you to put it in the middle of the living room.

LUX COMFORT - this type of filling is made of silicone down that retain the characteristics and softness of feathers but eliminate its defects, i.e. unesthetic "flattening" and allergenic properties. This filling ensures the highest comfort of use.
